1. What are the major strengths and weaknesses of the instructor?

I only can ~~say~~ speak about her strengths, as I've seen no weaknesses. She has a dynamic personality, she keeps the class interesting and makes a course that is mandatory regardless of majors, a fun place to be.

2. What aspects of this course were most beneficial to you?

Self confidence in learning how to talk in front of others. It is a beautiful thing!

3. What do you suggest to improve this course?

I strongly disapprove of group speeches. I understand the need for depts to ~~work~~ work together in the real world, but generally speaking, they all care for their jobs. In college, I worry when my grades, which need to be good, are affected by others who either don't care or do other things that will affect my grade... otherwise, it is all great!
